

Peel Clothworkers' Primary School

'Enjoyable learning for life'

Home Learning: W/B - Monday 4th May

Year 1

Amazing Africa!

Our new topic for this half term is Amazing Africa. We will be learning about the people, places, cultures and wildlife in Africa.

Reading

Pattern and Theme Poems - Your own Poem

Choose an African animal that you would like to write a poem about. This may be the same animal that you did your verse for last week. Read some information books to find exciting and interesting descriptive words for your animal that would be good to use in a poem.

Objectives:

- Distinguish between fiction and non fiction and the reading purpose.
- Use phonic and high frequency word knowledge to read new or unfamiliar words.

Writing

Pattern and Theme Poems - Your own Poem.

Use the exciting and interesting descriptive words that you have found to write a simple poem about an African animal of your choice. You could use rhyme in your poem if you like but you don't need to. You could use a repeating pattern like in the poem that you looked at last week.

Objectives:

- Incorporate and show an understanding of adjectives.
- Include new and interesting words and phrases into writing.

Maths

Number - Place Value to 100 including counting in 2s, 5s and 10s.

Objectives:

- Count to and across 100 forwards and backwards beginning from any given number.

Challenge 1

Counting in 5s

Write down the sequence on numbers that you say when counting in 5s from 0.

What do you notice about this pattern of numbers? Which digits do the numbers always end in? Write down anything else that you notice about the numbers in the sequence.

Challenge 2

Counting in 10s

We have already worked on counting in 10s from 0 - 100 earlier this year in class.

We are now going to think about counting in 10s when you start at different numbers.

Choose a number between 0 and 100.

Write down the number and then work out what is 10 more than this number and what is 10 less than this number.

For example:

Repeat with some different starting numbers.

What do you notice about the digits in the tens column and the units column when you are counting in 10s?

10 Less	Number Chosen	10 More
14	24	34

Science

Physical Processes - Light

Objectives:

- use my own ideas to make predictions
- talk about changes in light that result from actions.

A shadow happens when a solid object passes in front of the light source causing an absence of light. Watch the video below and then see if you can spot any shadows inside or outside.

<https://www.bbc.co.uk/bitesize/clips/zshxpv4>

Try and create a shadow with a lamp, and any object. Draw around the shadow on a piece of paper.

What do you think will happen to the shadow if you move the object?

Did the shadow do what you thought it would?

Cross Curricular Challenge

Amazing Africa

Objectives:

- use a variety of sources to find information about places (books, internet, stories, photographs).
- recognise and explain similarities and differences between two places.

Watch the documentary below:

<https://www.bbc.co.uk/iplayer/episode/m000c6pn/seven-worlds-one-planet-series-1-7-africa>

Note down some of the similarities and differences between the Isle of Man and Africa.

Think about :

- Climate
- Animals
- Plants
- Habitats
- Any others that you notice.

Feel free to use any other sources, but ask an adult to help you stay safe while searching online.

PE

Objectives

- jump in a variety of different ways using appropriate techniques.

Practice all the different ways you could jump.

Long jump, tall jump, running jump, jump with two feet, jump high, 1 leg,
