

Truly Scrumptious

3H, 3QW, 3W

Hello! Welcome to the Year 3 Home Learning Newsletter

We hope that you all are keeping safe in these uncertain times.

Each week we will be uploading home challenges onto the school website linked to the learning that has taken place in school so far this half term. Challenges will include English, Maths, Science/Topic, P.E. and a cross curricular idea. These challenges are optional and are there to give you ideas to help your child to continue learning in a fun and engaging way.

We are continuing with our topic Truly Scrumptious as there is still so much learning that the children could engage with. The activities that have been planned don't require any special resources and there is a list of websites to assist you if required.

School website:

<https://peelclothworkers.sch.im>

Reading

Reading is very important at this time and we encourage your children to read lots! Try to read every day. You could keep a reading log and set a challenge to read as many books as you can at this time.

P.E.

Physical exercise is important too and we encourage you to get outside in your garden if you have one and get physical. Try and learn a new skill or practise skills that you have been learning this half term. Please remember the social distancing advice and, although this is tough, do not meet up with your friends socially.

Internet Safety

We have included a list of websites that might be useful for your child to access at home if they are able. Please be extra vigilant about online safety at this time. There is a wealth of information on the Safer Schools website and app that was launched earlier this year.

English

- Practise reading and spelling the keywords from the front of your reading record.
- Keep a diary about your thoughts and feelings.
- Use adjectives and similes when writing.
- Practise using punctuation correctly.,?!“” ... Aa

Maths

- Learn the times tables off by heart (2x 3x 5x 8x 10x 4x 6x)
- Learn addition and subtraction number facts off by heart (to 10, to 20, to 100).
- Learn how to tell the time.
- Follow a recipe together and practise weighing.

Topic

- Practise researching and making notes on an area that interests you.
- Be creative and practise drawing or junk modelling.
- Be inventive and make up a game or a new gadget or a sweet with special properties
- Get physical and exercise every day.
- Play board games.
- Learn a new skill such as sewing or knitting or weaving.
- Have FUN and keep safe!
